

To,

The Joint Secretary (AFF),

Sub : Clarity on deficiency for CBSE Affiliation

Dear Sir/Madam,

This is with reference to deficiency in the mandatory requirements, stated for SL-90921-2324 SRI CHAITANYA SCHOOL SYNO86/B KOMPALLY (V) DUNDIGAL GANDIMASAMMA MANDAL MEDCHAL DISTRICT RANGA REDDY , TELANGANA-500014 has applied for (Fresh affiliation upto Secondary level). As per the given directions to fulfil, we took utmost care and completed the tasks. The following points were reflected for the school to work on.

1. CWSN facilities like ramp at the entrance, ramp / lift to access upper floors are not seen in the IC video. One ramp to access upper floor is shown in the IC video which is very steep and looking like stair case is covered with a green carpet. This cannot be used by a CWSN student. The school is advised to refer circular No.5/2023 for CWSN facilities.

The school is CWSN friendly and to facilitate CWSN students we constructed RAMP to access upper floors as per your advice and circular No.5/2023. Please find the photos of the same below.

2. As reported by the school, CWSN toilets two each for boys and girls are there, though it is not sufficient for a multistoried building (G+5), but only one CWSN toilet is seen in the IC video. The school should have separate CWSN toilets for girls and boys along with normal toilets for students and staff on every floor.

Though our school building is (G+5) we are using (G+2) as per the requirement of our school strength we have made arrangements for separate CWSN toilets for girls and boys along with normal toilets for the students and staff on each floor. Please find the photos of the same below.

3. The school has applied for affiliation as switch over from other Board category whereas there is no students shown beyond class VIII.

Our school has successfully completed a batch from SSC Board exam in the year 2022-23. Though we had 9th and 10th standards we were not aware of showing students beyond 8th Standard.

4. The indoor sports facilities is not seen in the IC video.

Our school has good indoor games facility we made arrangements for clear vision. Please find the photos of the same below.

5. There is no partitions fixed in boys urinals.

We have taken care in extending the Partitions in the boys urinals. Please find the photos of the same below.

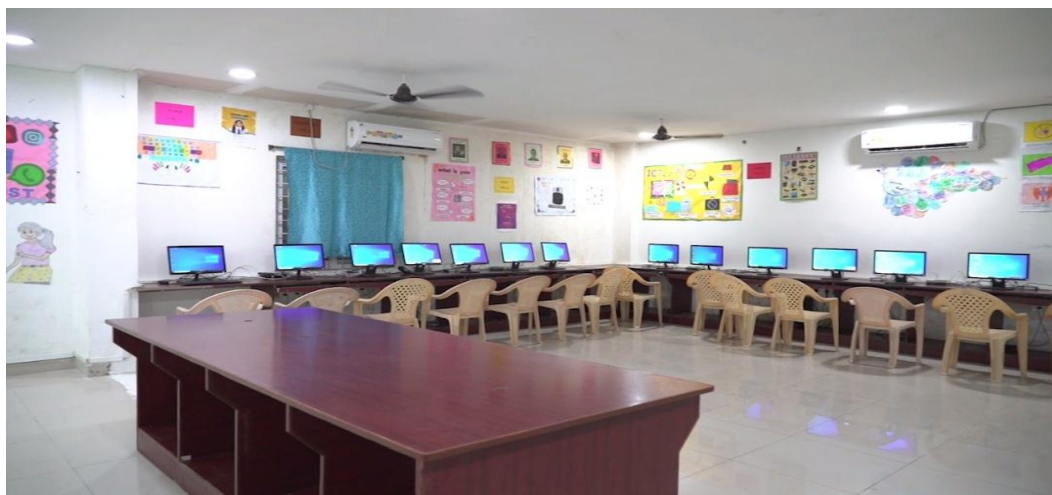

6. The height of boundary wall of all sides is not properly seen from the aerial view.

We made arrangements for the clear vision of the height of the boundary wall of all sides. Please find the photos of the same below.

7. As per IC report, there is no composite science lab and all other labs (except Maths lab) are undersized.

We made arrangements to meet the required size of Composite Lab as per the CBSE norms. Please find the photos of the same below.

Computer Lab
