

It is our proud privilege to present before you the annual report of the academic session 2019-20.

### **Inception of Sri Chaitanya Institutions**

Sri Chaitanya group of Institutions was founded by our honorable directors **Dr. B. S. Rao** and **Dr. Jhansi Lakshmi Bai** in the year **1986**. The couple has laid a strong foundation and set benchmarks in the field of education through their dedication and futuristic vision. Later in the second generation their daughters and our beloved directors **Mrs. Seema Boppana** and **Mrs. Sushma Boppana** have taken over the lead and transformed the outlook towards education which has been nothing short of exemplary.

The past two and a half decades witnessed **Sri Chaitanya** introducing novel academic programs that have helped students enter the nation's premier engineering and medical colleges.

The academic year **2019-20** has started in a vibrant way. The Pre-primary, Primary students were given a warm welcome by their teachers through '**Back to School**' program designed with various activities that included dancing, singing, drawing etc. which truly uplifted the spirit of children after a long summer vacation.

We believe that our parent community is our strength and they are the stake holders of our institution. '**A Coffee Meet**' with primary parents was organized in the month of July in which the '**Young Learners Program**' was explained and '**Elite Club**' activities were inaugurated.

The month of August witnessed a festive season in our school campus. All national, state and religious festivals were celebrated so colorfully that reminded a feeling of brotherhood and patriotic spirit.

We feel delighted to share with you all that our Primary students were given a great opportunity to compete at global level in Abacus competition conducted by **GAJSMA**. The final event was held in Dubai in the month of September'2019 and we are proud to share with you all that 3 students from ECIL have bagged '**Super Champion Ship and Champion ship**' awards and these students were also recognized for their outstanding performance among 7 different schools from other countries. The students also had an amazing experience throughout their stay in Dubai.

All praises to the students and team of experts who have trained students vigorously and planned the trip meticulously. I would also like to thank parents for their trust and support in making it successful.

### **Assessments**

**'Assessment is the engine which drives the student's learning.'**

Assessing students periodically helps them in enhancing their learning potentials. Our examination schedules are planned in such a way that every student has a pleasurable preparation and eventually they get the best result.

Apart from regular assessments our students are also exposed to various regional, national and international level Olympiad competitive examinations like KAT, NSO, IMO, IEO,INTSO etc. and we are happy to announce that huge number of students from our branch have bagged many national and international ranks along with gold, silver and bronze medals.

### **Sports**

**A healthy mind leads to a happy life.....**Physical education is an integral part of our curriculum and we ensure that every student is given this privilege.

We are very glad to inform that, **Sri Chaitanya Schools** have joined hands with **Fit India Movement** by educating and imparting **Sports** and also by promoting **Yoga- the greatest pride of India**.

**Dec'4<sup>th</sup> 2019** was a remarkable day in the history of our institutions. Our students have created two world records in the following categories.

**More than 100000 Students from Grade 1 to Grade 5 across Seven States from India performed sports drill for 7 Minutes without any break in 214 different venues.**

The second world record was followed by....

**More than 76000 students from Grade 3 to Grade 5 across seven states from India performed 45 different types of Yogasanas for 15 Minutes without any break in 214 Different venues.**

All the Students, Teachers, and the Management dedicated this greatest event to the proud Founders and Visionaries of Sri Chaitanya Educational Institutions **Mrs. And Mr. B.S. Rao**.

In the month of January, during Sankranthi celebrations, rangoli competition was organized for our students and parents, which was a colorful event. The entire school premise was filled with beautiful rangolis.

### **High School**

Our high school curriculum emphasises on developing professionals out of students by instilling in them a career-oriented approach to academics.

Every child has innate capabilities that help him/her shine. Our teaching faculty are well trained in every aspect on regular basis by in-house experts as well as by CBSE Board to bring out latent qualities, transforming the student into a successful individual.

Sri Chaitanya devised a strong Curriculum, integrating the components of Maths, Physics, Chemistry and Biology which are needed for the various Entrance Exams. To create awareness and deeper understanding of scientific facts and data to enhance reasoning, analytical and problem solving skills in pupils, Olympiad examinations with the support of renowned organizations at various levels are being steered." Other scholarship exams conducted by government and private authorities are encouraged too. Mathematics and Science to name a few – include foundational concepts whose mastery is essential for well-rounded education.

**"SMART LIVING PROGRAMME"** is a special program introduced to inculcate social responsibilities in students. Self-Discipline, Moral Values, Health Awareness, Responsible towards Society and Technological Advancement as the main themes, various programs are being conducted on monthly basis to enable children to understand the importance of responsibility towards family, community and our nation.

Under adoption program, our teachers become facilitators to every student in excelling academics through adopting a set of students, who are counseled periodically and their progress is thoroughly monitored so that they become successful.

As a “**TEAM**” we can create incredible wonders – shaping up a stronger nation is combined responsibility of an institution and parents. I thank individual parent for constantly trusting **Sri Chaitanya**, which inspires us to render our services for the best interest of our students and your ever gratification.

Year after year we are able to cross the trail from one academic session to another so effortlessly with your trust & support and look forward to extension of the same in future too..... **THANK YOU**
