

INFRASTRUCTURE

Campus Ambience

The School is situated in a sprawling green oasis of 20 acres, just 20 miles northwest off the domestic and international airports and within easy reach to all the amenities of the city. The landscaping ensures that the entire campus maintains a comfortable temperature. The campus consists of 1, 00,000 sq. Feet of built up area available during this first phase, with the balance of space utilized for sports facilities and operational needs.

The main wing comprises three floors of spacious classrooms, laboratories, library, and art studio. Apart from this, there are separate boys' and girls' hostels and an administrative building.

The rich soil facilitates organic farming, supplying the school's kitchen with fresh produce. Furthermore, the students get to test their green fingers! At Sri Vidhya Academy, we have ensured uninterrupted power supply by installing standby diesel generators. There is ample ground water supply from our own RO treatment plant inside the campus. Rain-harvesting and water conservation are also part of our agenda.

Campus Dining

It is clean and spacious enough to accommodate all the students and staff together. This is where the children learn table manners. We have two separate hygienic kitchens, for cooking vegetarian and non-vegetarian food. Students may opt for either. Our dining hall, kitchen and kitchenware are kept in sterile condition.

A nutritionist plans the menu, taking into account preferences expressed by student representatives, and guides the kitchen staff in preparing wholesome dishes, whose ingredients come from the school's farm. At bedtime, they are given a glass of milk (flavored or unflavored as preferred). The kitchen is supervised by a trained supervisor round the clock.

Healthy food makes body and mind healthier, so your child will have more energy to enjoy learning and playing. We include an array of recipes for breakfast, lunch, dinner, school time munchies, after school treats, sweets and delicious drinks.

Sports

Sri Vidhya Academy believes that sports enhance the abilities of the child and develop challenging spirits. In the age of television, computer and video games, school students are becoming highly inactive which consequently leads to obesity in their later life. So the school believes that sports activities should be encouraged from the very early days as sports and outdoor games play a very important part in development of a healthy and fit body. Adequate coaching and practice is given in all sports both in the morning and evening sessions. The school has lush green tennis courts, one badminton court, one Basket Ball court, Skating Rink, well equipped fields and facilities for all the major and minor games. We also encourage anyone who is interested in Traditional Martial Arts.

The school students from various sports are encouraged to participate in several state and national level tournaments and Inter House tournaments. Performance/ achievement in sports and games is also regularly graded. The Annual Sports Meet is celebrated with great pomp and show every year in Sri Vidhya Academy in their School Ground. Inter House competitions of various track and field activities are held at regular sessions.

The day long programme comprises of the march past, drill and aerobics display by the primary and the secondary students. In track and field events, students of all the classes participate in various events like the frog race, caterpillar race, garlanding the partner race, skipping race, 100m, 200m, 4X100 relay race, three legged race, obstacle race, tug of war, etc. There are special events organized every year for the parents, guardians.

The students are classified under the four houses.

HOSTEL

“Cleanliness is next to Godliness”

A home away home. The school offers separate hostel for boys and girls. Our hostel is surrounded by a green and friendly environment. There are three beds in each room for three students. Each student has a study table, cupboard and a reading lamp. A separate laundry bag and shoe rack is made available; Students can opt for AC room. Rooms are mopped every day and clothes are washed and pressed. Wardens and maids are there to look after the needs of the students, Students get the help of the residential nurse for any ailment. The bathrooms and toilets are adequate and well designed, with a provision for incinerators. Smart card facility is given for the students to contact their parents.

CLASSROOM

The school buildings combine elegance and majesty required for an institution of learning make us one of the best boarding school in India. Safety and security are of international standards with computerized firefighting system; CCTV's and security control access to all areas. Security personnel are equipped with the sophisticated communication system.

The Classrooms are spacious enough to accommodate 25 students per class. Each student desk is standalone with aisle on either side permitting free movement. Furniture is ergonomically designed and customized for every child. They also allow for regrouping during teamwork and round table seminars. The dimensions of the classroom, construction style and material as well as the positioning and construction of the teacher's podium ensure good acoustics. Each classroom has its own comprehensive audio-visual equipments like LCD projector, overhead projector and digital display screen.

LANGUAGE LAB

The Classrooms are spacious enough to accommodate 25 students per class. Each student desk is standalone with aisle on either side permitting free movement. Furniture is ergonomically designed and customized for every child. They also allow for regrouping during teamwork and round table seminars.
